

JULIE BEISCHEL, PhD

1517 N. Wilmot Rd. Ste. 254

Tucson, AZ 85712

JulieB@JulieBPhD.com

www.JulieBPhD.com

- PhD, Pharmacology and Toxicology, minor: Microbiology and Immunology
- co-founded the Windbridge Research Center and the Windbridge Institute, LLC
- applies the scientific method to topics outside of traditional paradigms
- interdisciplinary expertise in physiology, pharmacology, and consciousness
- qualified researcher at the bench and in the field
- skilled in writing and editing grant applications, articles, chapters, and books
- effectively conveys complex scientific concepts to non-scientists
- engaging communicator, experienced educator, critical thinker

Beischel, J. (2007). Contemporary methods used in laboratory-based mediumship research. *Journal of Parapsychology*, 71, 37–68.

Beischel, J., Larson, D. F., Yu, Q., Yang, B., Sepulveda, R. T., Kelley, T., Watson, R. R. (2004). Dilated cardiomyopathy in retrovirally infected mice: A novel model for silent viral DCM? *Cardiovascular Toxicology*, 4, 317–25.

EDUCATION

Ph.D., Pharmacology and Toxicology, May 2003

Minor: Microbiology and Immunology/Immunopathology

The University of Arizona, Tucson, Arizona

Dissertation title: *Retrovirally induced dilated cardiomyopathy in murine acquired immunodeficiency syndrome*

B.S., Environmental Sciences, Emphasis: Microbiology, May 1996

Magna Cum Laude and With Honors

Northern Arizona University, Flagstaff, Arizona

RESEARCH EXPERIENCE

Co-Founder/Director of Research

July 2017-Present

Windbridge Research Center, Tucson, AZ

Manage research direction and research volunteers; oversee research project design and implementation; subject recruitment and screening; data collection and analysis; and grant application and manuscript writing and editing.

Co-Founder/Director of Research

January 2008-Present

The Windbridge Institute, LLC, Tucson, AZ

Manage research direction and personnel; oversee research project design and implementation; subject recruitment and screening; data collection and analysis; and grant application and manuscript writing and editing.

Co-Director/Research Associate/

William James Post-Doctoral Fellow in Mediumship and Survival Research

June 2003-December 2007

**VERITAS Research Program, Laboratory for Advances in Consciousness & Health,
Department of Psychology, The University of Arizona, Tucson, AZ**

Independently manage the day-to-day activities of the research program including hypothesis development; protocol design; consenting, screening, and training human participants; conducting experiments; data collection, entry, and analysis; manuscript writing and editing; and managing undergraduate student research assistants.

Graduate Research Associate

August 1996-May 2003

Graduate Program in Pharmacology and Toxicology

The University of Arizona, Tucson, AZ

Research involving whole animal studies and cellular and molecular techniques including tissue culture; reverse transcriptase and competitive polymerase chain reaction; electrophoresis; Northern Blot Analysis; and immunohistochemistry in the fields of pharmacology, immunology, and physiology.

- Rhine Research Center, Advisory Board Member
- Forever Family Foundation, Scientific Advisory Board Member

FORMAL TEACHING EXPERIENCE

**Special Projects Professional (Instructor), Public Safety and Emergency Services Institute (PSESI), Community Campus
November 2007-April 2009**

Pima Community College, Tucson, AZ

Provided basic science lectures to fire department and military personnel or other individuals obtaining training, certificates, and/or degrees in emergency medical technology, public safety, or fire services through programs approved by the Arizona Department of Health Services Bureau of Emergency Medical Services and by the National Registry of Emergency Medical Technicians. Subjects taught included Cellular, Tissue, and Systems Biology; Chemical Level Organization; Hematology; Anatomy and Physiology; Medical Terminology; Infectious and Communicable Diseases; Toxicology and Poisonings; Drug Dose Calculations; CNS Drugs; and Behavioral Emergencies.

Guest Lecturer, Osher Lifelong Learning Institute (OLLI), The University of Arizona

November 14, 2007: "The Reach of Consciousness"

Taught a full-day course on consciousness research including DMILS, Mediumship, Group Coherence, Psychokinesis, Telepathy, and Intention Research. Co-presenter: Mark Boccuzzi.

Chemistry Tutor, Minority Access to Research Careers (MARC) Program

September 2002-May 2003

The University of Arizona, Tucson, AZ

Tutored 1-2 underrepresented undergraduate students per session in basic chemistry.

Adjunct Faculty, Human Biology for Allied Health (BIO 156)

November 2001-May 2002

Pima Community College, Desert Vista Campus, Tucson, AZ

Instructed pre-nursing students enrolled in a pilot program involving combining introductory biology and chemistry classes and labs and a schedule that allowed students to continue their full-time employment as Certified Nursing Assistants.

Adjunct Faculty, Environmental Biology (BIO 105)

Summer 2001

Pima Community College, West Campus, Tucson, AZ

Instructed undergraduate students in environmental sciences using a basis of biological and general scientific principles. The course included lecture and lab.

Instructor, Pharmacological Basis of Therapeutics (PCOL 501) Group Discussions

September 1998-May 1999

The University of Arizona, Tucson, AZ

Facilitated group discussions among graduate students regarding topical journal articles.

Substitute Instructor, Immunology and Immunopharmacology

Colleges of Pharmacy and Medicine

The University of Arizona, Tucson, AZ

Served as a guest lecturer for certain segments of classes taught by Prof. Douglas Larson.

Teaching Assistant, Basic Human Pathology (PATH 515)

January 1999-May 1999

The University of Arizona, Tucson, AZ

Assisted the instructor with set-up and take-down of laboratory equipment, prepared and stored preserved human tissue and organs, and fielded student questions.

Tutor

Summer 1996

Four Corners Upward Bound, Flagstaff, AZ

Assisted high school students participating in a summer program with water quality research projects, scientific papers, and oral presentations.

Instructional Aide of Science and Math

September 1995-May 1996

NAU North Learning Assistance Center, Flagstaff, AZ

Tutored college students in biology, chemistry, and math. Level II certified.
